01 *Welcome to the summerhouse*

Summerhouse Holistics was established in 2012 after I made the decision to switch careers following the birth of my first daughter. Following the arrival of my second daughter in 2013, my resolve strengthened to find a career that would enable me to fulfill my dream of helping others while also allowing me precious family time with my girls.

Throughout the years, Summerhouse Holistics has evolved and expanded, and I have had the privilege of treating many amazing clients, some of whom have been with me since the very beginning.

Holistic therapy offers numerous opportunities for us to regain control over our health and well-being, empowering us to take charge of our wellness. My goal is to deliver professional and personalised treatments in a relaxed setting where I encourage you to place your trust in me as we journey toward wellness together. I am passionate about supporting each of you through life's challenges, helping you heal when needed, and inspiring you to live life to its fullest.

Policies

A few important points.....

Cancellation

I understand that sometimes plans change; however, I kindly request that at least 24 hours notice is given if you are unable to attend. This allows me to try and offer the appointment to someone else. Missed appointments and cancelled appointments with less than 24 hours notice will incur the full cost of the treatment. If you arrive late to an appointment, the treatment will be provided in the remaining time available and charged at the full price.

Treatment time

Treatment times are inclusive of consultation, aftercare advice, payment and changing and are not indicative of hands on therapy time. Consultation is often done in advance to ensure maximum time is given to the treatment on the day.

Behaviour

The client/therapist relationship is strictly professional. Inappropriate behavior or language will not be tolerated; failure to comply will lead to the immediate termination of the treatment and you will be required to pay for the full session.

Contraindications

Before the initial treatment, a comprehensive medical history is gathered. If you have a condition that poses a contraindication, the treatment cannot proceed. In some cases, permission from your GP may be required before beginning. If you have any uncertainties regarding your condition, please feel free to contact me for advice.
